Effective September 1, 1940

9.—Special legislative grants for the teaching of Music in Public and Separate schools and in Grade C Continuation schools will be apportioned and paid to boards, as set forth below, and where the following conditions are met:

GENERAL CONDITIONS

(1) The grants for the teaching of Music shall be for the work in Music done during the preceding school year, September to June. Proportionate grants will be given in the case of schools introducing Music for the first time at any time during the school year.

(2) The Inspector shall report on a form provided by the Department of Education that the supervision, accommodations, equipment, organization, teaching and pupils' proficiency in Music are satisfactory. In addition to the regular Supervisor's lesson, provision should be made in the time-table for a period of daily drill in Music by the regular classroom teacher.

(3) No special grant for the teaching of Music will be paid to any board unless the teacher or supervisor of the subject in the school or schools is properly qualified and has fulfilled the requirements for the teaching of Music.

(4) No special grant for the teaching of Music will be paid to the teacher.

In Cities Having a Population of 50,000 or Over

The following grants will be paid to the board for each qualified teacher of Music giving full time (20 hours or more) to the work in Music, provided the board has spent during the current school year for Music equipment at least double the amount of the grant being applied for.

(*a*) For the holder of a Supervisor's certificate..... $40.00

(*b*) For the holder of an Intermediate certificate..... 30.00

In Urban Municipalities Having a Population of Less Than 50,000 But Not Less Than 1,000

Where the teacher or supervisor of Music devotes less than full time (20 hours or more per week) to the work in Music, he should give an average of at least one-half hour per classroom per week, during regular school hours, to the teaching and supervision of the work in Music.

In any school that wishes to qualify for the special grant for the teaching of Music, the teacher of Music must have general charge of the work in the subject throughout the school, i.e., he must teach or supervise the work done in Music in all the regular classes of the school. No grant will be recommended unless the teacher teaches or supervises Music in four or more classrooms.

If there is more than one qualified teacher on the staff, the work in Music may be divided among the various teachers, but one teacher must have general charge throughout the school in order for the school to qualify for the grant. Where the teacher or supervisor of Music does not teach all the work in Music himself, he must give adequate supervision to those classes which he does not teach, i.e., he is expected to spend a short time regularly in every classroom which he supervises, *during the class period*, so that he may see that the work in Music is being carried on properly by the assisting teacher and that the pupils are making satisfactory progress.

In urban municipalities having a population of less than 50,000 but not less than 1,000, the board will be paid a grant of one-half the cost of any Music equipment bought during the current school year, subject to the following conditions:

(*a*) For each holder of a Supervisor's or an Intermediate certificate in Music, employed by the board and giving not less than 12 hours per week to the work in Music, maximum grant $40.00;

(*b*) For each teacher of Music holding an Elementary (or higher) certificate in Music and giving less than full time in at least four classrooms, maximum grant, $20.00.

In Urban Municipalities Having a Population of Less Than 1,000 and in Rural Schools

The teacher of Music in an urban municipality having a population of less than 1,000, in a graded rural school, or group of rural schools, shall hold an Intermediate (or higher) certificate in Vocal Music and shall have general charge of the work in the subject throughout the school, i.e., he must give an average of at least one-half hour per classroom per week to the teaching or supervising of the work done in Music in all the regular classes of the school. No grant will be recommended unless the teacher teaches or supervises Music in three or more classrooms.

NOTE.—An Elementary certificate may be accepted on condition that the holder completes the requirements for a higher certificate at the earliest opportunity.

Where the above requirements are met, the board will be paid a grant equal to one-half of the amount spent by the board for Music equipment and for the salary of the Music teacher (other than a teacher on the regular staff) during the current school year, the maximum grant to any one board being $80.00.

In the case of township school areas, the maximum grant for each school section joining the area will be $80.00.

NOTE.—If Music is taught in the school by one of the teachers on the regular staff, no grant will be paid to the board on the salary of the teacher, but a grant will be paid equal to one-half the cost of any Music equipment bought during the current school year up to a maximum grant of $80.00.
